

Newly-designed “can’t miss” wide mouth feeder tube can help increase fastener loading speed!

Accommodates fasteners up to 8-inches in length.

Simplified and easy bit replacement process saves time.

Redesigned plate shuttle links are easier to compress for all day comfort.

Easy-to-use depth adjustment ring sets the precise depth for each fastener/plate to avoid over- and under-driving for a quality installation.

Highly visible orange “screw-in chamber” indicators alert users to avoid loading two screws at the same time.

Accomplish more projects with interchangeable boots for installing AccuTrac Insulation Plates and RhinoBond Plates.

AccuTrac EZ is the “stand-up tool” for contractors who want to win more projects, install more squares per day, and maximize rooftop productivity when installing insulation fasteners and plates. Compatible with a variety of OMG Fasteners including #12 Standard, #14 Heavy Duty, and #15 XHD.
